

Manually Adding Students

- 1) Click "Manage Students"
- 2) Click "Add User" at the bottom of the table
- 3) Create a username, display name, and password for the student.
- 4) Click "Add User" again

Students under 13 must be added this way or by SSO options.

Login Cards can be printed and distributed to students under "Export/Download"

Inviting Students

- 1) Click "Manage Students"
- 2) Have students go to www.storyboardthat.com/classroom
- 3) Students will create their own username and password
- 4) Students will then enter your teacher name, access key, and a display name

This is for students over the age of 13.

Students can also use SSO to create accounts this way

Students who already signed up for accounts can enter this way if not in another teacher's portal
